

New Settler On North Side Of Peace River Found Dead In Trunk In His Log Shack

(Special to The Tribune)
PEACE RIVER, May 30.—Believed to have been murdered two or three days ago, Matt Schmidt, a new settler here, was found in a trunk in his log shack Tuesday by Mounted Police in charge of Inspector Haddell, who was with a hammer. Schmidt, who was a single man of about 35 years of age, came here by car from Saskatchewan only about two weeks ago. He had a valise attached to his car and he was noticed by many citizens about town, but he made only a few acquaintances during his short time here and these were mostly merchandise from whom he had purchased supplies.

Very shortly after his arrival in the town Schmidt purchased a farm about two miles west of here and two miles north of the main highway leading to Fairview and Grande Prairie and it was in the small farm house, Schmidt allegedly murdered a man was found by the police.

Particulars leading up to the search and discovery have not been divulged. Robbery is believed to have been the motive for the alleged murder, as Schmidt is said to have had considerable money in his possession. No particulars are available as yet as to the unfortunate man's people.

Father Giroux Forty Years In The Priesthood

Father Giroux left for Kelly Lake on Tuesday's train on an errand of mercy. He has completed his forty years in the priesthood, being ordained at Ottawa.

He came to the Peace River in 1886 and took charge of the mission at Hualien, where he speaks in the Creole language, which he speaks as fluently as his native language, French.

Some years later he was attached to the mission at Grouard and did much travelling from an important factor in the settlement of the Donnelly and Father did much.

For many years, Peace River as Father Giroux. He has travelled over a good portion of the north in summer and winter and found avocation there. In other words, he has experienced practically everything in life. Just before Father Giroux, who is 60 years of age, came to the Peace River, the writer asked him how he was feeling. The veteran priest smiled, straightened himself and replied he "always feel good." He then stepped aboard and was on his way on another errand of mercy.

On June 15 Father Giroux will take charge of the Barrys district.

Real Fun-Fest At North Kleskun June 13th

The Young People's Society of Emmanuel Lutheran Church at North Kleskun, will present the farce comedy "Always in Trouble" on June 13, at 8 p.m., at the home of Mr. Lou Heintz's home.

Last year, in June, this same group of players made a record by playing the hilarious adventures of a hooded con, promises a similar treat, a real fun-fest, abundant in funny situations and brisk action. You'll never forget this! It starts with a laugh and ends with a roar.

Watch for further announcements and by all means reserve June 13 for "Always in Trouble."

Another Sports Grounds For The East End Dist.

Ten acres of the school section in the East End near Pat Rooney's store was recently set aside by the government as a community sports ground.

Lindsay and Benson school boards were asked by the municipal council to take over the looking after of the grounds. This has been agreed to and the people of the two districts are excited to have a new place to play the sports on Thursday.

The idea has met with general approval and a large turnout is expected.

Buffalo Lakes Sports to be Held Wed, June 6th

Buffalo Lakes Athletic Association will hold their annual sports on Wednesday, June 6.

A full line of sports will be run off and the offering promises to be fully up to the standard of previous years.

The sports ground, which skirts one of the large Buffalo Lakes, is one of the most attractive spots in the country.

Refreshments will be served on the grounds.

Following the sports there will be a dance in the hall.

The local undertaker, accompanied by Mounted Police, is bringing in the body today and the inquest is expected to start this afternoon or evening.

In the meantime, Mounted Police in charge of Inspector Haddell, who is commanding the local headquarters, are searching the district for clues as to the perpetrator of the ghastly act.

Former G. P. Bank Clerk Is Accidentally Shot

The many friends of Fraser Layton, who was attached to the Grande Prairie branch of the Bank, will regret to learn that he was accidentally shot recently.

The Canadian Canadian carries the following story of the unfortunate event:

Fraser Layton, 22 member of the Royal Bank staff here, is recovering from an injury caused when he was accidentally shot through the chest with a bullet from a 22 calibre revolver in the hands of Mr. May's hospital and his recovery is practically assured.

On Monday evening the bank boys were having a farewell party for H. Fraser Layton, who was leaving the bank on his last day. While making preparations for a little amusement on the evening's program the revolver went off. Mr. Layton being the direct path of the bullet, Dr. Krause was immediately summoned and gave first aid. After being conveyed to the hospital in Burgin's ambulance, the young man's condition was looked into by both Dr. Krause and Dr. Lamb.

The revolver which caused the trouble was the property of Mr. Bradley, who is well versed in the care of firearms and considered to be an excellent shot. Mr. Bradley was unaware that the weapon was loaded. Both young men have been treated here long enough to make many friends and are popular about town.

Central Dramatic Society May Be Formed Here

There was a good attendance at the meeting held in the Elks Hall on Friday evening of last week to discuss the advisability of creating a central body to handle all dramatics at Grande Prairie.

Mr. Ballour, who was responsible for calling the meeting, occupied the chair and after outlining the purpose of the meeting called upon "Ted" Cohen, adjudicator of education and dramatics at the Musical Festival.

Mr. Cohen, who was in a great deal to do with the little theatre movement at Edmonton, told of how he had organized an organization outside.

He pointed out that the present union at Grande Prairie would still remain in existence and that the central body would handle all major productions. He further stated that there could be an experimental department whose function would be to find out and develop new talent.

Referring to the plays presented at the festival, Mr. Cohen said: "You have possibly more people with the ability to act than any other place its size in Alberta." He stated that any one of the plays presented in the town class would have stood high in the provincial dramatic competitions.

After general discussion on the question of creating a central body, the following were appointed as a committee to make a preliminary report at a later meeting: Frank Spicer, Father McGuire, Rev. Eric W. Jackson, and Rev. Nelson Chappel.

If such an organization is established, and there is every indication that it will be, it is planned to give as much assistance to the country districts as possible as should such assistance be desired.

Oldtimer of the Clairmont District Passes On

The Clairmont district lost another of its oldtimers in the person of William C. Rankin, who passed away at the Hualien Hospital on May 24, following a lingering illness.

The deceased, who was in his 50th year, had been a resident of the district since 1911 from the Hanover municipal district, Manitoba.

As relatives are expected on Friday's train, the date of the funeral has not yet been announced.

Aeroplane Loses Race With Death To Grande Prairie

In a dash to reach the bedside of his little daughter, Julia, who lay on the verge of death in the Municipal Hospital, the Rev. H. H. Hunt of Clairmont made a quick trip by aeroplane from Edmonton Monday afternoon. Mr. Hunt had been attending to the funeral of a friend of the United Church at Edmonton when notified of his daughter's illness. He rushed away shortly before he reached Grande Prairie.

The little girl was Miss Julia Dickinson, who took ill about Edmonton on Tuesday morning.

M.L.A. to Speak AT OPEN AIR MEETING

Hugh Allen, M.L.A., will speak at an open air meeting at the home of Mr. and Mrs. D. B. Stewart, half mile west and to the south of town, on Monday, Friday, June 4, at 8:30 p.m.

The public are invited to attend. Mr. Allen will speak with 100% and other matters of interest.

SCENIC HEIGHTS SCHOOL SPORTS POSTPONED

According to a telephone message from The Tribune correspondent, Scenic Heights School sports, which were to be held on Friday, June 4, from 5 p.m. to 8 p.m., have been postponed.

The reason for the postponement is that the weather is not favorable for the sports.

Fire Destroys Big Barn In The Rio Grande District

RIO GRANDE, May 28.—Ed Moore, western Rio Grande farmer, suffered considerable loss when his big barn was totally destroyed by fire on Saturday night.

The barn, which was one of the largest in the district, was built of wood and contained a considerable quantity of hay and grain.

When the fire was discovered it had made such headway that it was impossible to save anything.

There was no insurance. Cause of the fire is unknown.

South of the Wapiti Settlers Co-operate and Build Ferry Across River South of G. P.

What can be accomplished by co-operation has been demonstrated by the settlers living south of the Wapiti.

About a year ago the settlers approached the government through Hugh Allen, M.L.A., and A. H. McQuarrie, road superintendent, with the proposition that if the government would send a foreman to supervise the work they would get out the logs, help saw the lumber and build the ferry.

This proposition was accepted, and the result is that the ferry, towers, etc., are completed. Not only that, but the men are at present busily engaged in making a road down to the ferry, which is located about a mile up the river from the old crossing.

What can be accomplished by co-operation has been demonstrated by the settlers living south of the Wapiti.

Legion Smoker Proved a Most Enjoyable Affair

Between 40 and 50 veterans attended the smoker of the Grande Prairie branch of the Canadian Legion, held on the Legion grounds on Monday evening.

The smoker was one of several which the Legion will hold to stimulate membership. Quite a number of new members joined up and it seems certain that the Legion will realize its objective in its drive for membership, which was launched some weeks ago.

There was a fair representation from the country as well as outlying towns and villages.

President J. B. Oliver made an excellent chairman. The occasion was graced by the presence of "Punch" Dickies, the famous fiddler.

Jack Peterson's four-piece orchestra was present and were unstinting in supplying a delightful program of music.

The chairman called upon Henry Roberts, honorary president of the organization, who donated the building and lot to the Legion.

As the oldtimer stood up he was greeted with prolonged applause. He thanked the meeting for the honor done him. He said what he had done was but a small compensation for the returned men had done.

The chairman then called upon the noted fiddler, "Punch" Dickies, who was appreciated the opportunity to be present and to play for the returned men.

Many games played in the old war days were participated in.

Comrade Walters of Rexneth brought greetings from that branch.

The evening proved a most enjoyable one.

Whole Peace Country Favored With Rain

"It couldn't have been more timely if the farmers had had more time to it," is what people in town said regarding the rain, which commenced about 10 a.m. Wednesday.

According to the meteorological station at Grande Prairie, the half inch of rain had fallen up to 8 a.m. Thursday morning. Since then there has been no more rain, but the ground is still very dry.

While there was plenty of autumn moisture, there were expressions that the dry, hot windy weather continued the surface of the land would suffer and crops be damaged. The splendid rain, which it is understood is general throughout the whole Peace River country, allays all such fears.

With the early start in seeding, coupled with sufficient moisture, a bumper crop throughout the part of the Dominion seems assured.

Bezanon Picnic To be Held on Wed., June 13

The Bezanon Annual Picnic will be held this year on June 13, on the hall grounds.

A full line of sports will be run off. The true spirit of a picnic will be kept up on this year as usual and the occasion will be a real get-together affair.

There will be refreshment booths on the grounds and following the sports there will be the usual dance in the hall.

Grande Prairie Creamery Co. Away To Promising Start; Over 300 Cans First 3 Days

The Grande Prairie Creamery opened its doors for business on Monday morning and Manager Billing stated to the Tribune that the response to his production is concerned was far beyond his expectations.

Up to noon on Wednesday over 300 cans of cream were shipped in on Tuesday's train from the west, some of which came from as far west as Dawson Creek, Beaver Lodge, Hays and other places.

The creamery will be a real get-together affair on the opening day.

Grande Prairie Agricultural Society Decide To Hold Big Sports Day, Mon., July 2nd

At the annual meeting of the Grande Prairie Agricultural Society, held in the Town Hall on Monday evening, it was decided to hold sports as usual on the 2nd of July.

The election of officers resulted as follows:

Hon. President—G. A. James.
Secretary—F. J. Toney.
Directors—W. L. Caldwell, Tom Paul, John Lounsbury, J. E. Lewis, P. U. Chubb, W. Perkins, J. E. Thomson, Fred Cooke, Harlan Conrad, F. W. Russell-Davies, Dr. Akin, E. J. Hitting, and H. J. Murray. Ladies: Mrs. W. L. Caldwell, Mrs. G. A. James, Mrs. P. U. Chubb, Mrs. H. Conrad, Mrs. W. J. Thomson.

Big Wrestling and Boxing Card Here Saturday, June 2nd

The Wapiti Arena is all set for the staging of Frank Donald's big wrestling and boxing card on the evening of June 2, commencing at 8 o'clock.

Jack Divila, lightweight champion of Alberta, and Vic McKay of Elm Park, Manitoba, star pupils of Tommy Gibbons, will head the boxing division in scheduled ten-round mill.

"Speed" Fraser of Dawson Creek is expected to fight Fred Green to a scheduled six-round affair. Green is undefeated and is a very good fighter.

Both these boys have been seen in town here before and will be depended upon to give a good account of themselves.

Dick Hook of Riverton and Ted Ryce of Smoky Heights will try to clinch in a catchweight four-round bout.

Harry and Jimmy Wapiti, 11-year-olds, will appear in the open in three rounds. These boys are credited with being exceptionally clever and have appeared in the Lethbridge district on several occasions.

In the wrestling division Mike Bilyay, Edmonton, 144 pounds, and John Demchuk, 172 pounds, of Calgary, are billed to struggle for 10 rounds in a 10 minute scale, for the midweight championship of the province. Both men are well known and popular in their class. If they run true to form, fans should get out for their money in this bout alone. The grapplers would that they are on the way.

Harry Conrad, the well-known referee, will be the third man in the ring. The referee has been in the business for some time.

Northfield Boy Dies as Result of a Fall From Horse

Stigmund Hanson, age 10 years, son of Mr. and Mrs. Isaac Hanson, of Northfield, died as a result of a fall from a horse on Tuesday as a result of being thrown from a horse on Tuesday morning.

The boy was in the habit of going to school by horseback. On Monday morning he was on a horse he had never ridden before. The horse ran away and the boy was thrown against a telegraph pole and his skull fractured. He was in the hospital for some time but he passed away without regaining consciousness.

The funeral will be held from the Northfield church, Friday, June 4, at 2 o'clock.

The family is well known in the district, having settled there several years ago, and the sympathy of the community goes out to the bereaved ones.

Small Boys Need More Money For Their Play Ground

The list is still open at the Tribune for donations for the small boys who are trying to raise money for themselves to play-ground on the north side of the town.

The Tribune already has received some money for the boys. Donations to this office have been suggested.

Bill Fleming Hardware has active a used new basketball and the Thomson Hardware Co. has a new basketball.

The cause is a worthy one and deserving of hearty support. Remember, any amount, from a nickel up, will be accepted.

Flooding Cause Of Association Being Formed

HIGH PRAIRIE, May 29.—A strong campaign is being started here to establish a local association to fight the cause of the association being formed.

An association has been formed, known as the High Prairie Protective Association. They have asked for help from the Board of Trade, the U. F. A., the Canadian Legion, and others, in an endeavor to have something done.

Strong resolutions are being prepared to be sent to the Board of Trade. With the numbers on relief it is felt that the time has come for some action.

Central Council To Hold Convention at Pouce on June 25

The Central Council of Peace River Boards of Trade will hold its annual convention at Pouce on Monday, June 25.

Last year the convention was held at High Prairie.

Many important resolutions will come before the convention. It is an important business, and it is expected that there will be a large representative attendance.

Trucks were received from the east to be used for business on Monday morning and Manager Billing stated to the Tribune that the response to his production is concerned was far beyond his expectations.

The first cream customer was the Peace Cafe and the first butter customer was the Wapiti Hotel.

The first quill butter carries the label "Grand Brand" and the second "Best Creamery Butter."

The pasteurizing machinery, which was shipped in, arrived to day and will be immediately installed.

Timely Hints From the

Beveridge Sub-Station

W. D. Beveridge

"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

Battles have been won or lost through the observance or neglect of details.

Not unexpectedly, ice has proven the chief cause of winter-killing in 1933-34.

Die up and destroy, root and branch, the first destruction ever occurring on the lawn.

The Saskatoon hedge was again a thing of beauty, blooming this year a week or ten days ahead of the usual date.

Purchasing Reward wheat from a neighbor and getting it locally ground. H. H. McNaughton of this city has been provided himself with flour at a cash cost of about one dollar per cwt.

All foremen and firemen have been beating its wings against the office window pane, flying back and forth at eight feet between the window and the maple branch. What prompts such persistent futile attempt?

Not until one begins clearing up around an old site, does one realize that a waste of feed takes place through the careless stacking of hay and bundles in a windy, snowy or humid climate. Of course, for the pioneer there is often no alternative.

With all the farm building that has been done in the world it would seem that barn planning could scarcely present any unsolvable problems except cost. On the contrary each barn and house offers a fresh individual problem and upon the solution depends much of convenience and economy for a lifetime to come.

Threshing and seeding have run neck and neck in many a field this spring. One of the Peace River papers reports the case of a farmer who sowed his first one week and threshing from the next. On the field he sowed the very quick maturity. The coming autumn may be hearing of some farmer having sown his first one week and threshing from the next.

"Annual loss from weeds is \$179,200,000" reads the headline in a circular emanating from the Manitoba Agricultural College. At other times we read of millions of loss from insects, millions from rust, millions saved through the planting of varieties, etc., etc. On top of this are told that we are making ourselves poor by practicing too much food. To an ordinary mind these statements do not quite "hang together." Where is the joker?

Cleaning Pigweed and Pennycress

Out of Affairs

Can pigweed and French weed be taken out of affairs? I don't think there is much in it, but I don't know any chances. How much would it take to clean it?—R. K. Whitworth, Alta.

Ans: It will probably prove impossible on the farm to make a clean job of separating pigweed and pennycress (French weed) out of affairs. If one had access to a large seed cleaning machine he might try a 1/16 round sieve screen as a sifter and a 1/20 round sieve screen to separate the small weeds. These screens will remove many of the undesirable weeds, but not all.

When to Sow Sweet-Clover Stubble

1. When sweet-clover is cut for hay, the land in preparation for the second crop should be sown as soon as the hay is removed or after the second growth is in. If two crops of hay are cut, does fallowing or subsequent spring-plowing give the better result?

2. If a crop of hay is taken early the second growth may be sown in time for seed.—B. D. Johnson, Alta.

Ans: 1. To help answer such questions as these an important new project, styled "A Sweet-Clover Rotation Experiment," has been this year launched at Beveridge.

On general principle one would suppose that soil fertility would be conserved and increased by letting the aftermath of the sweet-clover grow a while to be plowed down, although Dr. Kirk's work at the University of Saskatchewan did not seem to make much of a case for this. In dry areas the immediate effect might be even adverse, because the longer the clover continues to grow the longer it keeps the soil dry, consequently the less the seed food there is brought into solution for the next crop and the less moisture there is stored for it to use. If the year following the plowing of the sweet-clover were a dry one, a three-year rotation of sweet-clover, wheat and alfalfa, in this rotation the sweet-clover is sown down with the last year wheat at the

rate of 20 pounds per acre. The sweet-clover crop of the middle of the middle of July, after which the sweet-clover is plowed and the alfalfa is sown, is the period of the season. The average yield of sweet-clover hay in this rotation over a period of five years has been 1.45 tons per acre. The yield of wheat, the following year has averaged 32.5 bushels per acre, as compared with 34.5 bushels where sweet-clover was sown.

It is generally acknowledged that the sweet-clover crop of the middle of July, after which the sweet-clover is plowed and the alfalfa is sown, is the period of the season. The average yield of sweet-clover hay in this rotation over a period of five years has been 1.45 tons per acre. The yield of wheat, the following year has averaged 32.5 bushels per acre, as compared with 34.5 bushels where sweet-clover was sown.

It is generally acknowledged that the sweet-clover crop of the middle of July, after which the sweet-clover is plowed and the alfalfa is sown, is the period of the season. The average yield of sweet-clover hay in this rotation over a period of five years has been 1.45 tons per acre. The yield of wheat, the following year has averaged 32.5 bushels per acre, as compared with 34.5 bushels where sweet-clover was sown.

The sweet-clover rotation described above has the advantage of providing a hay crop with a partial summer fallow in one year. In this way the crop of hay offers to extend the cost of the fallow, while the sweet-clover roots add organic matter to the soil. In addition, the fallow permits of destroying weeds and insecticides for the following crop of wheat.

Where sweet-clover soil is plowed in the summer for wheat, it is inadvisable to wait until the second growth of sweet-clover is in before plowing. While this practice would result in the addition of organic matter to the soil, the benefit so secured would be more than offset by the loss of the sweet-clover roots and the plants. Moreover, in dry seasons the organic matter plowed under would decompose very slowly, and a considerable amount of growth occurred before plowing.

The practice of plowing under a growing crop of sweet-clover in order to increase organic matter in the soil, does not prove particularly successful in western Canada. In fact, the average yield of wheat following the entire crop of sweet-clover plowed under was less than that of wheat following a fallow. In fact, the average yield of wheat following the entire crop of sweet-clover plowed under was less than that of wheat following a fallow.

Climbing roses, unlike rose bushes, produce flowers on the wood of the previous season's growth, and should, therefore, not be severely pruned.

Perfect drainage is the most important point in growing wheat, and the soil is heavy or the drainage poor, the soil should be removed for two feet and some gravel or other suitable material substituted. Coarse sand and gravel should be mixed with heavy soil but no raw manure is required.

The home of the Ladak variety of alfalfa recently introduced into Canada, is the police used in the Himalayas. It is the police used in the Himalayas. It is the police used in the Himalayas.

It is inadvisable to wait until the second growth of sweet-clover is in before plowing. While this practice would result in the addition of organic matter to the soil, the benefit so secured would be more than offset by the loss of the sweet-clover roots and the plants.

It is inadvisable to wait until the second growth of sweet-clover is in before plowing. While this practice would result in the addition of organic matter to the soil, the benefit so secured would be more than offset by the loss of the sweet-clover roots and the plants.

Green Candles Light Plant Disease Survey
Farmers' Light Plant Disease Survey
Farmers' Light Plant Disease Survey
Farmers' Light Plant Disease Survey

GREEN CANDLE LIGHT
The Dominion Department of Agriculture, in its annual report on the progress of the green candle light plant disease survey, states that the survey has been successful in detecting the disease in a number of cases.

APPLE MAGGOT CONTROL
Most encouraging progress in controlling the apple maggot has been reported to the Federal Apple Maggot Control Committee, together with predictions from all quarters that the pest will be kept under control.

LIGHT WEIGHT LAMBS
The marketing of spring lambs at too light weights is a most unfortunate practice, and the Dominion Department of Agriculture is endeavoring to bring about a change in this practice.

PLANT DISEASES SURVEY
As an instance of the value of the prompt completion of observations of plant diseases, the Dominion Department of Agriculture is endeavoring to bring about a change in this practice.

EGG GRADE RESPONSIBILITY
In case of dispute about properly marked cases of graded eggs, the Canadian egg regulations are quite explicit. No case or container of eggs is to be marketed unless it is properly marked.

WHEAT CROP FERTILITY
The germination of Garnet wheat was improved by moderate fertilization, but the results were not as good as those obtained with the other varieties.

WATCH FOR CUCUMBER BEETLE—A DANGEROUS PEST

One of the earliest of garden crop pests is the striped cucumber beetle, a small insect about an inch in length which feeds on such plants as cucumbers, melons, pumpkins, etc. It is yellow in color, with a black band across its back, and a black spot on its head. The beetle attacks the plants shortly after they break the soil, and it is very difficult to find the young larvae which are often completely destroyed with the result that the tiny plants die quickly.

Growers with large patches of any of these plants would be advised to watch them closely for the first appearance of the cucumber beetle. If any appreciable damage is being done control measures should be taken at once.

An effective treatment is the dusting of the plants with a mixture of kerosene, lime and gypsum. (Dust plaster) using 1 part of the former to 20 parts (by weight) of the latter. The young plants should be thoroughly covered, both the upper and lower surfaces of the leaves as the insects feed in both situations. Hydrated lime can be substituted for gypsum, but tends to dwarf the plants and temporarily stunt their growth.

To be successful dusting should be commenced at the first appearance of the beetle, and continued until no more damage is often done before the grower, who is not on the lookout for them, is aware of their presence. Three or four applications a few days apart, depending on the severity of the infestation, are usually sufficient to hold the beetles in check.

RENOVATING THE LAWN

Lawns, as everybody knows, require a great deal of care, especially this spring when a long and hard winter has been upon them. The lawn should be mowed, and watered, and fertilized, and the soil should be kept in good condition. The lawn should be mowed, and watered, and fertilized, and the soil should be kept in good condition.

"When is the Peace River to get the Coast Out? We've waited twenty years. We need it NOW!"

CONCERT AND DANCE AT WEST HYTHE SCHOOL

The West Hythe school will have a concert and dance on Friday, June 1, at 8 o'clock. They will have also a quiz for all. Ladies 15 cents, gents 25 cents. Ladies 5 cents. Supper included.

Mrs. Carmichael was a visitor in Grande Prairie last Friday.

Mr. Parrell Swenson is having his residence remodelled and electric light installed.

Wm. Gent and Wm. Linhart, from Tupper Creek, are visiting in town this week.

Mr. Flom has returned from Grande Prairie much improved in health after his operation.

Mr. and Mrs. Jack Light, oldtimers here, were renewing old acquaintances in the district last week.

Mrs. George W. of Lymburn was a business visitor in town last week.

Mr. Ted Mint went to Seasmith on Sunday last. Wonder what takes Ted over there so often?

Mr. Jack Finlay, improving his property by building a new barn and large board fence. Since the new baby has come life is a little livelier.

Mr. Wm. Cowie, a popular grain buyer, was out on a pleasure trip last Sunday. He, too was at the Red Willow bridge (laughing).

OLDTIMER HAS GONE

Mr. Campbell, known as "Bertie", passed away at Grande Prairie on Friday last. He was an old settler here.

MAYBE BITTEN BY BUG, TOO

Jack Kingsbury is a fisherman. He is fishing lately. Wonder if he has the same fever as some of our younger folks have.

TENNIS CLUB BUSY

The Tennis Club court is full every night and we should be hearing soon what they are going to do in the way of a tournament.

IN CHARGE OF STORE

Mr. H. Hooper and Miss Mabel Nopstad are in charge of the Flaten store while Mr. and Mrs. Nopstad are on a trip to Eugene, Oregon, and other points south.

SETTLING MOVING OUT

Herbert Walters and family (about 12 altogether) moved out to go to B. C. looking for a warmer climate. They went with horse and the old prairie schooner, etc.

ENJOY FINE CUP OF TEA

The I. O. O. F. met at the home of Mrs. (Dr.) MacRae. They had a fine meeting and enjoyed a very exceptionally fine tea along with other refreshments.

ENLARGING STORE

Mr. Frank Kowal, our latest shoe and harness repair man, is building quite a large addition to his store which is well in the business of the town.

SPRIT RIVER TROUPE IN TOWN

Hythe was visited early one morning by the dramatic troupe from Spirit River, who were on their return home after performing in Dawson Creek on the 25th. They were a fine bunch and as your scribe knew some of them he was pleased to see them.

W. A. BIRTHDAY TEA

The birthday tea held Friday afternoon in the United Church was presided over by the auspices of the W. A., included a little play, entitled, "Mother's Joy". The program was followed by tea, served by the hostesses, Mrs. Mill and Mrs. Phillips.

ON EXTENDED CAR TRIP

Mr. and Mrs. Oscar Flaten and two children, Grandma Flaten and Mr. Bird Rose have left on an extended car tour through a good portion of the United States. They will be away about six weeks. Mr. Rose has a large interest in a ranch in the Willamette Valley in Oregon and will visit there before returning to Hythe.

BIG CROWD AT RED WILLOW

There seems to be a grand attraction down at Red Willow. A large crowd was there Sunday. Mrs. Carmichael and Mrs. Oakford, with their families, were there, to fish, according to them. We never saw any fish, though there are always fish stories heard this time of the year. Mrs. Gannas and Mrs. Phillips (Julia Ann Oakford) were also at the Red Willow (laughing).

BUILDING GOLDBERGER'S BOAT

Mr. Lief Franson is building quite a large motor boat to go on Peace River—gold prospecting.

Mr. Franson is a very successful man who is going to try his fortune when the river rises. Some of them have been upstream before and have their location. Will give some about it when the boat is finished, as it is going to have quite a strong engine and carry quite a crew.

YOUNG MAN HAS PROBLEM

A young man of our town has a homestead ready to prove up, but he has to be a citizen. He went last week to the proper authority and the following notice was given: "Have you any estate?" "No." "No, the law is, it is assumed you must be a citizen or a cow. This young man has to count the cost, he is also attractive."

and he is taking the advice of the lawyer, which would be cheaper—get a wife or buy a cow?

PROUD OF ACHIEVEMENT

The young ladies of the town made up a softball team to go to Beaver Lodge for a series of games. The team, which was well worth competing for, was easily victorious. The girls were highly cheered by the crowd.

A poor excuse is better than none.

COMMENTS ON THE MUSICAL FESTIVAL

The Musical Festival held in Grande Prairie, May 28, 29, 30, was a great success. The local people were very much interested in the various competitions. The local people were very much interested in the various competitions.

ASPEN RIDGE

ASPEN RIDGE, May 28.—The local people who attended the Beaver Lodge sports on the 24th report a full sports program, which was greatly enjoyed by all present. The talk, "Tug-Boat America" was well worth seeing.

The baseball practice on Saturday evening was a little late in starting, but the game was well worth seeing.

Mr. and Mrs. Jack Light, oldtimers here, were renewing old acquaintances in the district last week.

Mrs. George W. of Lymburn was a business visitor in town last week.

Mr. Ted Mint went to Seasmith on Sunday last. Wonder what takes Ted over there so often?

LAKE SASKATOON

LAKE SASKATOON, May 28.—On Wednesday last Mr. E. A. Brinkman visited the old news of the death of his mother. He left the same afternoon by motor for Weyburn, to attend the funeral, returning today (Monday), accompanied by Mrs. Brinkman, who will visit here for a few weeks.

Hugh Dewdney of Grande Prairie spent Sunday at John Smith's.

A. R. Smith and family, Mrs. L. A. Perry and family, Miss Eva and Miss Edna Duncan, and Miss Anne Carr motored to Dawson Creek, B.C., on Sunday.

A number from here attended the Musical Festival in Grande Prairie last week.

Mr. and Mrs. A. Sherk and Mrs. Gordon Sherk of Huelin visited at Albert Smith's on Tuesday last.

Ted Revell of Aspen Ridge bore a well for Leonard Komuchuk last week and was successful in getting a good supply of water at a depth of about 100 feet.

Mr. and Mrs. Geo. Wiebe of Huelin are visiting their daughter, Mrs. Hanson at home.

The cost of producing clear last-born of the Dominion Experimental Station at Pithou and Assiniboia, Quebec from 1909 to 1922 has averaged \$100 per acre. With an average yield of 1,400 pounds per acre, the cost of production has been 101 cents per pound. As the selling price of the tobacco during these three years averaged only 8 cents per pound, the value of the crop was \$80.94 per acre. Throughout the province of Quebec, much smaller yields were obtained than on the experimental stations, the yield during the above period being 500 pounds per acre. To produce an acre of clear last tobacco has required 311 hours of manual labour and 94 hours of horse labour—Cost of farm implements, Dominion Department of Agriculture.

A LIFETIME TO REGRET THE GETTIE KIDNAPPING

The three kidnapers of William F. Gettie, behind the bars of the Los Angeles county jail, as they awaited removal to San Quentin prison to serve life sentences. They now face federal charges to prevent possibility of parole. Left to right are: James Kirk, called the "brains" of the gang; Larry Kerrigan and Roy Williams. An officer stands guard in the rear. A fourth man is held by police on suspicion of aiding the kidnapers.

SWIFT JUSTICE METED OUT

The law struck its hardest blow at kidnapers when the three men who abducted William F. Gettie, millionaire oil man, were shackled together at county jail for the trip to San Quentin Prison where they are under sentence to spend the remainder of their lives. The penalty was meted out only 24 hours after Gettie was rescued by the police from the kidnapers' den and came close to settling a record for the elapsed between capture of major criminals and their commitment to prison.

Given the choice of facing a jury of citizens aroused against kidnapers in general which would have the power to inflict the death sentence, or pleading guilty before a judge and take a life sentence, the kidnapers decided to plead guilty.

Heavily manacled and guarded, J. Kirk, leader of the gang, Roy Williams, "finger" man, and Larry Kerrigan, who guarded their victim, were led before Judge Charles F. Fricke. The grand jury had handed down a few minutes earlier hastily drawn indictments charging violation of the new California law which authorizes death for kidnapers who harm their victims.

Gettie was the only witness. He told of falling off the wall around his estate when the kidnapers made him climb over it. Judge Fricke decided that Gettie's bruises were not the result of considered violence and sentenced them to life with possible parole.

The sentence permits the kidnapers to apply for parole after a portion of their term has been served. Prosecution officials said that ordinarily prisoners under such sentence serve 25 years, but because of the nature of their crime, they may serve longer even if they are model prisoners.

Kirk, Williams and Kerrigan appeared dazed by the speed of the justice, which had overtaken them. Only a week previously Williams and Kerrigan invaded Gettie's estate at Arcadia and trussed up their victim and took him in the "hide-out," a house Kirk had rented at La Crescenta.

Kirk, the brains of the gang, immediately began negotiating with Gettie's family for \$500,000 ransom. The family tried to pay but there was a slip in arrangements. Later, Kirk was arrested. He gave information which led to the "hide-out" where Gettie was found trussed on a bed with Williams and Kerrigan guarding him.

Two women, Jean Burke and Lovetta Kerrigan, arrested with the kidnapers, still were in jail, and no charge has been placed against them. The kidnapers absconded their connection with the crime, though police had evidence showing that they were aware that Gettie had been kidnapped and was the captive of their men friends long before police freed him. District Attorney Burton Pitts will decide later what charges, if any, he will place against them.

Mr. Pitts intimated that they might be charged with conspiracy. Gettie was calm in his appearance before the grand jury and the court, showing no trace of the torture of being bound and blindfolded for almost a week. In a quiet, assured voice he told of his experience. J. E. Sampson, defense attorney, asked but one question.

"When you fell off the wall, did one of the kidnapers 'massage your ankles'?"

"Yes," Gettie said.

Five minutes after they entered the courtroom the manacled men were led out, felons doomed to life behind the bars.

BECOMES RECTOR

Premier R. B. Bennett has been elected to the office of Rector of Queen's University by acclamation by the Alma Mater Society of the University, and the Prime Minister has accepted the rectorship.

LEADERS REVIEW SOVIET NIGHT

Commisar K. Voroshilov (left) and Joseph Stalin, army chief and dictator, respectively, of Soviet Russia, pictured as they review the classic May Day parade in the Red Square, Moscow. At the top is a view of a section of the parade, showing Lenin's tomb in the centre.

A Few Items of World Interest

Winnipeg health authorities were seeking to stamp out a widespread but mild epidemic of measles. Altogether between Jan. 1 and May 12 a total of 4,655 cases have been reported.

The House of Lords approved in third reading the bill forbidding rodeos. The measure, which had already passed through the commons, was designed to protect animals from unnecessary suffering.

Japan's first official move in the trade deadlock with the United Kingdom was an effort to induce the London government to modify the restrictions recently placed on imports from Japan.

Dr. Stewart Hueston Kirk, assistant professor of geology at the University of Manitoba, died at Winnipeg after a protracted illness. He was 35 years old and was a native of St. Andrews, Scotland.

The United States department of commerce issued statistics showing the value of foreign liquors held in bond warehouses had increased from less than \$5,000,000 Dec. 31 to almost \$19,000,000 at the end of March.

If Canadian and United States wheat crops are reduced by one-third by the recent dust storms, it will be a "golden" said Hon. Earl Brownman, former assistant secretary of agriculture in the Wilson cabinet of the United States, in an interview at Toronto.

Citing the rapid decline in the number of cases of tuberculosis in Saskatchewan, Dr. R. S. Ferguson, superintendent of Saskatchewan sanatoria, expressed the opinion that within the next ten years the disease will practically have vanished from the province.

Donald Cameron McDevin, third year arts student at United College, is winner of the governor-general's gold medal for general proficiency at the University of Manitoba. He is the son of Dr. and Mrs. A. McDevin, Carman, Man.

"The FIRESIDE PHILOSOPHER"
BY ALFRED BIGGS

True lore asks nothing in return.
Wise men are at home anywhere.
An ounce of example is worth a ton of precept.
Universal honesty would bankrupt locksmiths.
Associate with those who know more than you know.
Fussing over small matters destroys ability to tackle big ones.
Those who boast of many friends are generally advertising themselves.

ADVISED TO REST

Hon. W. A. Gordon, minister of labor, immigration and mines, in the Dominion government, who has been advised by his doctors to take as much rest as possible, Mr. Gordon has been away from the House of Commons, but his condition, it is understood, is not serious.

AS POND AND SEBELL TOOK THE AIR ROAD TO ROME

George Sebrell (left) and George Pond are pictured in front of their Biplane, "Leonardo da Vinci," a few moments before they took off from Floyd Bennett Airport, New York, in their thrilling but unsuccessful non-stop flight to Rome, Italy. Above the plane is shown as it left the runway with the thermal City scheduled as the next stop.

ATLANTIC AIR CROSSING

Barly escaping a plunge into the sea, Capt. George Pond and Lieut. C. Sebrell brought their Rome-bound biplane to earth on a sandbank near Lashburn, Irish Free State. The main connection between the gasoline tank and motor of the craft broke just before the New York fliers came down on a small field about an acre in size. Forced to cut off their motor, the men ran their big orange plane into a sandbank, causing some damage to its undercarriage.

They landed 32 hours and six minutes after taking off from Floyd Bennett airfield at New York. Although defeated in their attempt at a non-stop New York-to-Rome flight, they completed the season's first aerial crossing of the Atlantic. No plane has ever successfully made the non-stop journey to Rome from North America.

Had the gasoline line of the Pond-Sebrell plane broken 10 minutes earlier the fliers would have been forced down before reaching the rock-bound coast of County Clare, one of the wildest areas in the British Isles.

"It was the worst experience I ever had," said Pond, after walking to Lashburn, where the fliers rested at a hotel.

"We saw absolutely nothing from the time we left Newfoundland until reaching Ireland. We encountered much fog and a very strong, veering wind."

The fliers sought aid from Baldonnet, and an air corps unit there was sending a mechanic to help repair the plane.

Leon Trotsky has shaved off his famous beard and moustache to conceal his identity as he wanders about Europe seeking a new refuge, it was reported.

GETTIE RELEASED WITHOUT RANSOM

Ransom negotiations for the release of William F. Gettie, California oil millionaire, which were confused by a second demand for \$500,000 while arrangements were under way to pay \$750,000 asked at first, collapsed when the kidnapped man was found in a house in Pasadena. The picture shows the kidnapped millionaire with his wife and three of their four children at their home in Arcadia, California.

BRITISH FOREIGN MINISTER SCOFFS AT ALARMISTS

When Sir Stafford Cripps, British Socialist (left), brought the Japanese situation into the debate on disarmament in the House of Commons, he received very forceful answers from Sir John Simon, British foreign minister. Sir John rejected the alarming picture of Japanese intentions drawn by the Socialist leader and made it plain Great Britain will not apply economic or other sanctions against any power violating any treaty unless all signatories of that treaty formally agree to act jointly.

Gleanings of Interest To the Women Folks

By THE GLEANER

BROUGHT HOME

THAY BOY
Mrs. Gahway returned from Edmonton on Tuesday's train and with her brought a tiny boy which she and Mr. Gahway have adopted. May be prove a great joy and blessing to them both.

AFTERNOON TEA IN
HONOR OF GUESTS

Mrs. J. Crammy entertained a few friends to afternoon tea on Tuesday in honor of Mrs. J. H. Yule and her mother, Mrs. Eley.

HELD BUSINESS MEETING

Christ Church Dramatic Club held a business meeting in the City Bakery on Tuesday evening.

ENTERTAINED WITH TEA

Mrs. Guy Stokes entertained a few people to tea on Thursday afternoon and a nice social time was enjoyed.

FRIENDS CONGRATULATE
FATHER GIROUX

Friends of Father Giroux, O.M.I., the well-known missionary, are congratulating him on the fortieth anniversary of his ordination to the priesthood.

WELCOME, HONEYMOON
COUPLES

We welcome the two honeymoon couples who returned to Grande Prairie on Tuesday's train to take up residence here.

CAN SHOWER AT
MRS. EVANS' HOME

A can shower was held at the home of Mrs. J. Evans on Friday afternoon for Miss Hazel and Miss Sales, who are about to set out on their annual tour of the Peace River district.

EAST END GIRL
WINS PRIZE

Miss Janet M. Ames, daughter of Mr. and Mrs. W. R. Ames of Beaman, who is a nurse at the University Hospital, Edmonton, in the graduating examinations won the general proficiency award. She was placed first in practical work in the first year.

Last year Miss Ames also distin-

guished herself for proficiency. Miss Ames will be completing her work in the hospital till the first of October.

APOLOGIES TENDERED

We regret that owing to the rush to secure Festival news the presentation of silver bonbons, dishes to Mrs. Sweeney and Mrs. Smart by the choruses of the Monroville Public School was overlooked in last week's issue.

SOME SONGS FROM INDIA

The Musical Festival has inspired me to write about a few quaint old songs from India.

In the early eighties the Indian method of conducting was the most uncomfortable ever devised. You travelled in a palanquin, and this was the four leavers song which was carried by an English clergyman, who had a very long hair and two hundred and twenty-five pounds. Each line in a different voice:

"Oh, what a heavy bag—
No, it is an elephant
He is an awful weight,
Let us set him in the mud—
Let us leave him to his fate,
As, but he will beat us then
With a thick stick.
Then let's make haste and get
Along.
Jump along quickly."

When carrying a young "mem-shah," this is what they sing:
"She's not heavy,
Cahada (take care).
Little baby (mistle)
Carry her swiftly,
Pretty baby."

Once there was a man called Cruick-shank, who is supposed to have written this noble song of the bairn:
"Here a true bred 'un, none of your jinking;
Straight across country, no time for thinking.
There's water in front, but a boar as well.
So over the water and ride like hell!
And here's the chorus:
Over the valley, over the hill,
Though the diak jungle, ride like devil."

BOOKS

By J. C. B.

The Romance of Leonardo da Vinci by Dimitri Merej Kowatz.

It is not a charming, romany romance founded on a handful of historical incidents, but the work of a man who has delved deeply into the history of Ancient and Medieval Italy. What a pageant of pomp and magnificence! What a wealth of color and splendor! And what richness of silks and velvets, of gold and silver and precious stones! Such was the Italy of the Middle Ages. And standing out from this setting, the Master Mind—Leonardo da Vinci, painter, astrologer, and inventor. Beloved and feared. Working out the problems of science in the midst of the people whose minds were beated by superstition and the fear of witchcraft. Behind the pomp and splendor are revealed glimpses of the true personalities of the people who

lived with one another to produce a great show of wealth and magnificence. Glimpses of human nature, its hopes and hates, its weakness and strength. The work of the great preacher Savonarola.

This is a wonderfully impressive book. And though a translation from the Russian, the prose has lost nothing of its original beauty. In his introduction to the new edition, Bernard Dubler Guernsey says: "Even as The Chioter and the Heath stands as the greatest of the historical novels of the English, I would rank 'Leonardo' as the greatest of the rank in Russian. As to whether it is the greatest historical romance in any language, I shall let the trust of all critics and the ultimate arbiters of the genre pronounce—decide."

go.

Tally-ho!
This was sung to the air of a Moody & Sankey hymn, "Redeemed Me O'er For All."

These pig-stickers! But I think the writers of hymns sometimes borrowed popular tunes, so it is only a case of turn and turn about.

In the period succeeding the Napoleonic wars, the British and Indian armies a tremendous block in promotion. Those were the days of white-haired captains and of that terrible toast in regimental messes: "To war or the yellow fever."

With this toast there was a diabolical song of the sick and dispirited. Here is one verse: "We must meath the sounding rafter, And the walls around are bare; As they about back our peals of laughter."

It seems that the dead are there. Then stand to your glasses steady. And drink to your comrades' eyes. One cup to the dead already. And hurrah for the next man that comes along.

THE WORLD ON YOUR SHOULDERS
A certain type of woman carries the world on her shoulders. She keeps a hired girl—but she does most of the household tasks herself (so that she can see they're done properly).

She feels personally responsible for everything that goes wrong in her own home and in her next-door neighbors.

She kept a dog she'd bark for her. There are girls in office like her. They have subordinates to relieve them of tiresome jobs—and they go on doing them themselves. Taking other people's responsibilities on their shoulders, wearing a harassed frown and a determined look.

She'll wrong no one, but she'll get anyone anywhere. You won't do any good by worrying over anything—unless it's your own job—you'll only add weight to your forehead and take years out of your life.

Leave other people to get on with their jobs—and get on with yours. The girl who is a busy little bee and makes the best of everything gets more fun out of life than the girl who is always waiting and worrying over things she can't alter and can't help.

Men stay in love with care-free wives; employers get tired of worry-ridden faces; homes aren't half so well run when one person does half a dozen people's jobs hurriedly—instead of doing one job well.

The girl with the world on her shoulders never gets the world at her feet.

DON'T INTERFERE . . .
When two people are quarrelling, unless you can remove the cause of the quarrel. To "side" with one or the other, or to imagine they're "top it," only makes matters worse.

When anyone makes a wrong statement, misapprehending a matter, misquoting a fact, or making an incorrect small piece of news. People object to being corrected in public, and since we all feel alike on this matter, it is only fair to let the treatment we hope to receive.

When your dressmaker is fitting you, she knows her own business. Once you have told her exactly what you want, leave all technical details to her.

When anyone is talking, let the speaker finish before you take the floor. "Butting in" is, unfortunately, not an uncommon fault in conversation.

When someone chooses to eat things that are "bad for her," The temptation to tell her to desist is so strong—but it is her own affair. She may even thrive on the diet if she enjoys it.

When another person happens to be working a machine different from yours—whether knitting, cooking or typing—by offering to show a "better way."

With other people's principles. Resist the temptation to show them how wrong is their belief in the old-fashioned education, or in the theories of Mrs. Aram, certainly, if they show a desire to argue, but don't impose on them.

When friends want solitude.

HOW TO PRESERVE EGGS
The following recipe was given to The Tribune by Mrs. Dunfield of Grande Prairie.

Put eggs in strainer or sieve and immerse in boiling water while you are in town. Lay on cloth to dry. Then wrap in paper and pack in box with small ends down. The box should be reversed every week or ten days.

Mrs. Dunfield stated that she found the recipe worked most satisfactorily.

FIVE MILE CREEK
FIVE MILE, May 30.—The teacher would like a good attendance from new on to the holidays as examinations are starting. Probable date of annual picnic will be June 29.

Mr. F. F. Sawyer and Mr. F. Sawyer were busy contrasting the trees at the school last week.

J. Mackenzie's outfit got off the new grade south of J. W. Sawyer's farm and upset the load. The road seems to be still soft there.

Mrs. Harry Sims and baby girl (Marguerite Joyce) are doing well. Christ Church Dramatic Society of Grande Prairie will put on two one-act plays at the Municipal Hall, to be followed by a dance, on Wednesday, June 30. George Tait's orchestra will supply the old-time music for the dance. Advertisement elsewhere in this paper. Harry Sims and friends are looking forward to a big time.

NEXT MEETING OF G. P. W. I.

SCHEDULED FOR JUNE 7TH

The next meeting of Grande Prairie Women's Institute is scheduled for next Thursday, June 7, at 3 p.m.

Ball Club: "Picnic Suggestions." Mrs. C. Bell is slated to give a short talk on "Public Health and Mrs. W. J. Thomson one on Legislation."

Other meetings are scheduled until September 6.

Services on the second and fourth Sunday of the month.

What One Girl Wore:
By Betty Brownlee

Now that summer clothes have been planned for and in many cases already bought, it's time to think of the accessories. There are so many little things that just can't be perfect in order to make the ensemble a complete success.

Walking, even to the athlete, isn't a pleasure on a torrid day unless one's shoes are as comfortable as possible. The afternoon costume doesn't look well with a walking shoe—that calls for a smart slipper. As the spectator's costume requires its own shoe, just as the evening ensemble calls for a dainty sandal.

Sketched in the top box this week we see a brown and white linen Oxford for spectator sportswear. Nothing is cooler than linen for summertime wear, but if you prefer a more formal one is also obtainable in combinations of black-and-white and brown-and-white leather. It is trimmed with perforated bands.

An afternoon stroll will be a delight if you choose the center shoe of creamy white suede distinguished by its clever diagonal strap and the rows of stitching on the vamp.

Dance away the warm evenings in this lovely cool sandal made of alternating stripes of satin and kid (dyed to match your gown at any shoe shop) and glittering with a host of silver bits.

Paragraphs of
Personal Interest

"Doug" Miller of Edmonton is visiting his sister, Mrs. J. E. Stewart.

G. F. McLeod of Spirit River was a visitor in Grande Prairie between trains last Friday.

Miss Margaret Harford of Edmonton is spending her holidays with Mrs. J. E. Stewart.

Al Fields and his sister-in-law were on Tuesday's train from Edmonton en route to Dimdale.

Mr. K. Dalgleish of Rio Grande returned this morning from a trip to the United States.

Mr. Pitts of Huelin was a house guest at Mrs. Geo. Crammy's during Musical Festival week.

Jack Peterson's four-piece orchestra has been engaged for the dance to be held in Beaman Hall on the evening of June 1.

Rev. Nelson Chappel returned on Thursday's train from Edmonton, where he attended the United Church conference.

Miss Morley Nelson, niece of Mrs. L. G. Fredette, was awarded a Surgical Scholarship at Vancouver General Hospital.

Rev. P. E. Schroeder will be away from Grande Prairie for one month. He is expected to return about the first week of June.

Mrs. D. Phelps of Cule is the guest of Mrs. A. Gaudin. Mrs. Phelps will remain in town until her son is able to leave the hospital.

Nelson Nix of Edmonton, student in engineering at the University of Alberta, is spending a few days with his sister, Mrs. Nelson Chappel.

Mrs. H. Jacques of Huelin motored to Grande Prairie, accompanied by Miss Jacques, Mrs. Burnard, Mrs. Pitts and Mrs. Stegmeyer, taking in the Festival.

A jittery dance was held at the L. G. F. Hall last Saturday night. Pensa's Orchestra supplying the music. It is planned to hold a series of such dances during the summer.

The following stopped off at Grande Prairie for a few hours while en route to Peace Coups from Edmonton, where they attended the conference of the United Church: James H. Clark, Rev. and Mrs. Russell Ross, and Mrs. Campbell, the latter of Peace Coups.

In another car were Mr. and Mrs. Denney and daughter, of Vancouver. They were accompanied by Rev. Wm. J. Huston of Wembley. Mr. Denney, who is a lawyer, may practice at Peace Coups.

GUIDE NOTES
Guide: Mrs. J. M. Sweeney.

We held our meeting after school on Tuesday in the music room. Mr. Frebrey came in and taught us a new knot and we also reviewed the one we already knew, which was followed by some drilling. We then talked about having a picnic on Saturday and other business.

Don't Turn the Corner
Until You Come To It . . .

Holidays are very valuable, but too long a holiday is just as bad as none at all.

A two months holiday from music lessons can be used to advantage. In a longer period than that pupils lose too much ground, which has to be recovered in the fall.

Take your holidays when holiday time comes, not before the end of June.

FORT ST. JOHN NOW
HAS BOY SCOUT TROOP

FOURTH ST. JOHN, May 27.—At a recent meeting here a Boy Scout troop and Wolf Cub (Junior Boy Scout) pack were organized. Thirteen boys were enrolled with the organization, six local and seven from Cule.

Wilfred Snowden was made acting patrol leader for the Scouts and Tom Platt acting second. The other Scouts: Manon O'Brien, Roddy Howe, William Middleton, Walter McLeod, and Eric Klok, second. Other Cubs: James Hunter, Eddie Howe, William Miller, Herbert Middleton, and Roy Snowden.

Meetings for both Scouts and Cubs will be held on Saturday evenings. Rev. J. P. Minor Simpson, Presbyterian minister at Fort St. John, is the scoutmaster and Manon O'Brien is Cub instructor.

In the Orient the soybean is used very extensively for human food. Although the nature and seed may be prepared similar to navy or field beans, when speaking they are rather more difficult to cook.

The first shipment of asparagus this year from the Niagara district of Canada were made on May 27.

We are expecting everybody at the island for the open-air U.F.A. Sunday. CHAS. F. HOPKINS, Secretary-Treasurer.
